KEY FEATURES

INDEPENDENT PANELS

- Independent panels create controlled air flow
- Manoeuvre the doors freely with just one hand
- Recover space lost with traditional folding door systems

HIDDEN HINGES

- No unsightly hinges that rust and tarnish
- Clean minimal design

INTERLOCKING PANELS

- Certified systems giving optimal protection from wind and rain
- No need for multiple locks

SLIDE AND STACK

COLOUR OPTIONS

- Over 200 RAL colours

DESIGNED & MANUFACTURED IN THE UK

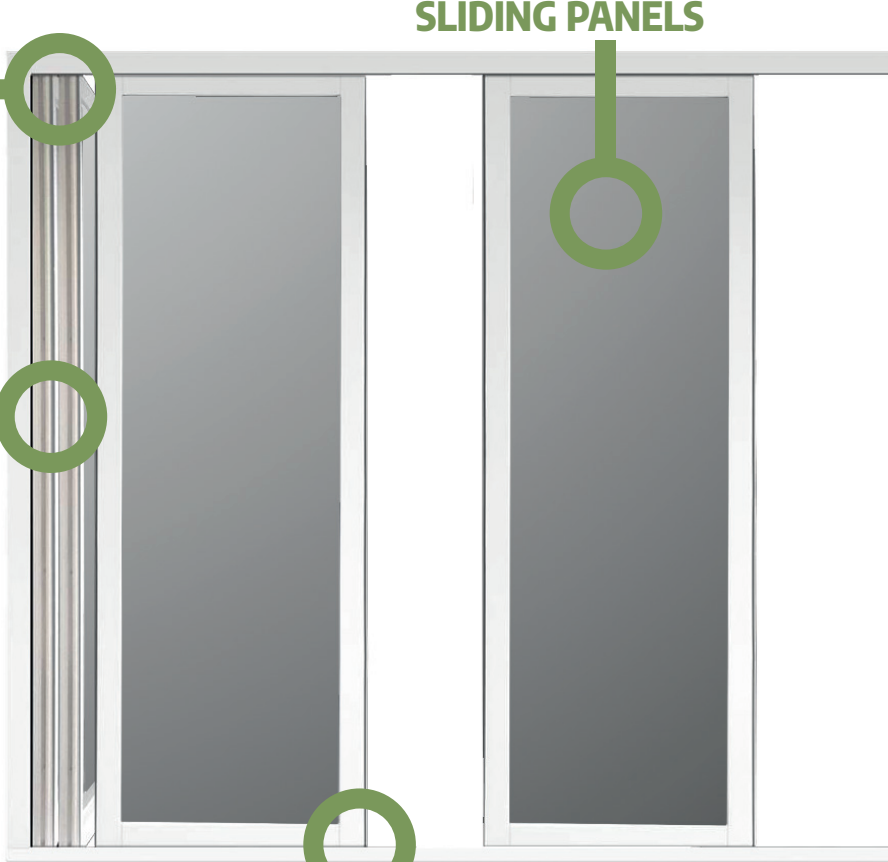

- Your doors are bespoke built to fit your opening
- All doors are manufactured in the UK

1. CONCEALED HINGES

2. INDEPENDENT SLIDING PANELS

8. IN-SWING OR OUT-SWING

7. BOTTOM TRACK SUPPORTED

1. CONCEALED HINGES:

All hinges/pivot points are concealed for a more pleasing aesthetics and architectural sight-lines.

2. INDEPENDENT SLIDING PANELS:

No hinges, no binding, no sagging. Panoramic door panels glide with a smooth and easy functionality along the bottom track.

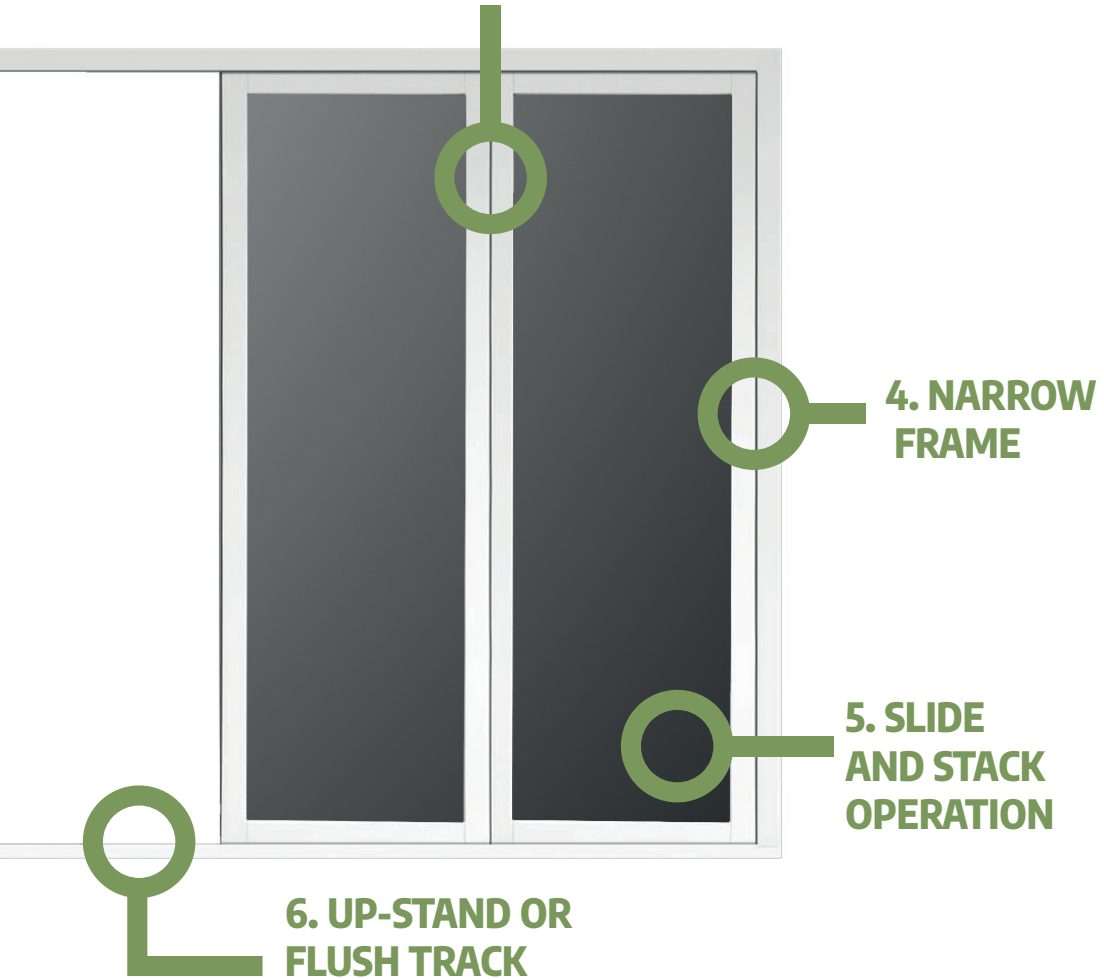

3. INTERLOCKING PANEL SYSTEM:

Interlocking “tongue and groove” panels provide for security and performance against the elements, without the need for additional locking mechanisms.

4. NARROW FRAME:

Our narrow 3” (inside to outside) frame give you plenty of room to add a screen or blinds.

3. INTERLOCKING PANEL SYSTEM

5. SLIDE-N-STACK OPERATION:

Utilizing our innovative, patented Magnaline® hardware system, the door panels slide-n-pivot independently for easier operation.

6. UP-STAND OR FLUSH TRACK:

Choose between the 3/4 up-stand track for maximum weather protection or the flush* track for a low profile appearance.

7. BOTTOM TRACK SUPPORTED:

Rather than hanging from the header, our panels ride on the bottom track reducing the cost of engineering and special structural support.

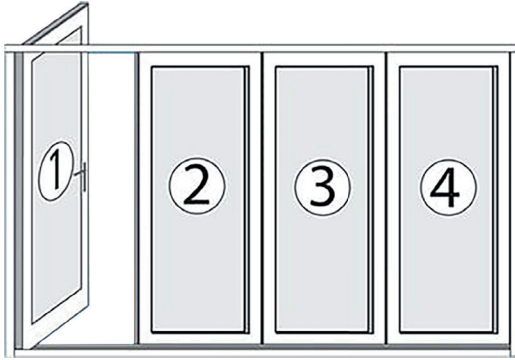

8. IN-SWING OR OUT-SWING:

Choose between in-swing or out-swing door operation.**

Note: *Flush track does not protect against water penetration

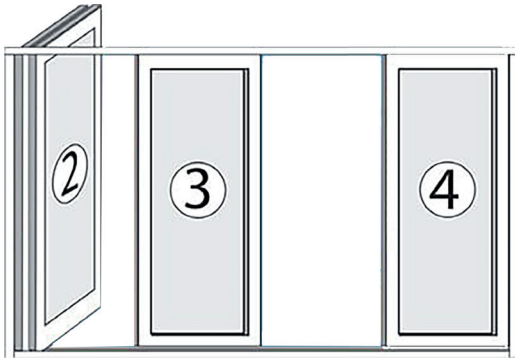

**Note: Nail-fin and Retro Outer Frame is available in out-swing only.

HOW THE SLIDE AND STACK SYSTEM OPERATES

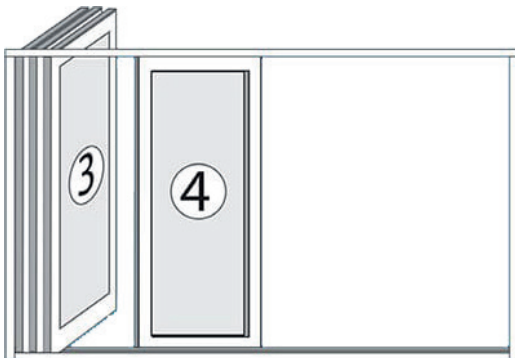

OPEN ACCESS DOOR

Turn handle to open the access door

SLIDE PANEL AND PIVOT TO OPEN

Slide the next panel over toward the open access door. When in position, the sliding panel will click into place and pivot open

CONTINUE WITH REMAINING PANELS

Continue the same process with the remaining panels.

HOW THE SLIDE AND STACK SYSTEM CAN BE USED

The revolutionary Slide And Stack System can be used in various ways to suit your needs.

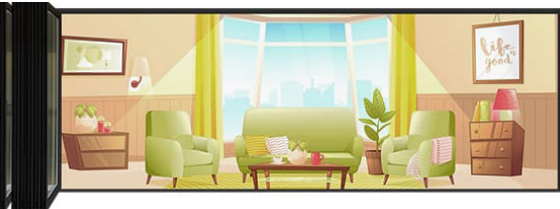

In the closed position your door has unparalleled sight-lines with no visual hardware.

With fully independent panels your slide and stack door can be fully vented to allow airflow.

Your sliding panels also give you the option to create a screen of panels of any size that you can move into any location, this gives you the most versatile door system on the market

MULTI-POINT LOCKING

All of our Slide and Stack Door Systems come standard with a multi-point locking system on each access door.
