***Your Door,
Our passion...***

A woman in a white jumpsuit is walking on a wooden deck, holding a young child. They are in front of a modern house with a dark roof and white walls. The scene is bright and sunny.

“ A house is made of walls and beams; a home is built with love and dreams ”

PREMIUM GARAGE DOOR SOLUTIONS

Come home to Novoferm

Introducing the **Novoferm Garage Door Range** – a collection of residential up and over, side hinged, sectional and insulated roller garage doors.

Available in steel, GRP and timber, our doors incorporate the latest innovations in design, technology, and security.

The architecture of our doors is what sets us apart from our competitors, from protecting against intruders to keeping properties warm and dry and the diverse range of customisable options available.

Discover the benefits of a Novoferm Door

✓ Automation/ Operators

The complete range of automatic doors listed in this brochure can be operated remotely with one of our tamper-proof hand transmitters. Alternatively, you can choose from one of our handy remote switches.

Our range of powerful handheld operators come loaded with features such as flexible door and lighting control and built-in security protection. Plus, our operators can work in tandem with our smartphone app for maximum convenience.

✓ Space-Saving

Our sectional and roller doors open vertically, unlike up and over doors that swing outward, so you can use every inch of your driveway.

✓ Security

Our garage doors come with a fully automated option, so there is no lock to pick or force. Rolling code technology in the control system prevents "code grabbing". Anti-thief features give further protection against unauthorised entry and an integral courtesy light illuminates the garage interior.

Plus, our doors come with other security features, from a built-in emergency sensor to a self-locking motor.

✓ Colours/ RAL Colours

Our doors are available in an array of eye-catching colours, with options to suit any preference and the period and aesthetics of your home.

✓ Timber Effect/ Finishes

Many of our steel doors boast stunning timber effects and finishes, allowing you to enjoy the best of both worlds. Options include golden oak and rosewood finishes.

✓ Insulation

Premium insulation keeps your property warm and dry in the winter and cool in the summer. It can also help with dampening external noises.

✓ NovoGuard

Novoguard Secured by Design doors and the 563 Novoguard system package are certified CS 5051 STS202, which is approved by the ACPO (Association Of Chief Police Officers).

Features include:

- Heavy-Duty Strengthening Ribs
- Heavy-Duty Springs
- Secure Locking Brackets
- Inside Locking Handle

Insulated DuoPort® Side Hinged Doors

Insulated Sectional Side Doors

Novorol Roller Doors

Insulated Sectional Doors

SCAN TO SEE MORE DETAILS

Novoferm's sectional garage doors are made up of separate sections that vertically lift and then run on tracks back into the garage. This style of opening allows you more space in front of the garage, as they do not swing out which means you can use every inch of available space in front of your garage.

Our insulated sectional doors comprise the highest quality materials including a built-in layer of insulation. This keeps your garage warm and dry in the winter or cool in the summer, helping to control your energy bills. It also helps reduce noise levels.

You can choose from three different insulation options depending on your requirements - iso 20 (20mm) iso 45 (45mm) and the newly added iso 70 (70mm).

Features and Benefits

- Tension Spring
- Interference-Protected Deflection Pulley
- New Cable Mount
- Multiple Extension Spring Assemblies
- NovoPort® - Unique and Flexible
- Anti-Pinch Inside and Out
- Interference Protection
- Double Skinned Insulation
- Lip seals on Frame
- Stainless Steel Frame Base

Heat insulation values up to:

iso 20 doors
K = 1.0W/m²K

iso 45 doors
K = 0.5W/m²K

iso 70 doors
K = 0.34W/m²K

Why choose a Wicket Door?

Wicket doors are a great alternative to side doors in cases where there's insufficient space to the side of the main door.

Wicket doors are standard doors that are integrated into the main door leaf.

The purpose is to allow quick and easy access without having to open and close the main door.

This also helps you manage security and privacy better as the main door will remain closed when not in use.

Insulated Wicket Doors

Horizontal Rib | iso 45

Large Rib | iso 45

Horizontal Rib Glazed | iso 45

Wicket doors are available for all iso 45 sectional garage doors up to a width of 5m. They offer a practical passage width of 80cm and provide perfect heat insulation due to the double-skinned insulation used.

Flush | iso 45

Panelled Glazed | iso 45

Insulated DuoPort® Side Hinged Doors

SCAN TO SEE MORE DETAILS

Insulated DuoPort® side hinged doors consist of two doors that open “barn door” style rather than vertically. These doors are available as a 50/50 split with both door leaves of equal size. There’s also the choice to have the doors open inwards or outwards.

Our Insulated DuoPort® side hinged doors are available in a range of patterns, surfaces, and colours.

Our insulated DuoPort® leaf doors offer you the possibility to use your garage as a utility room, for leisure time or hobbies. You can choose whether to open both doors or just the active door.

Would you like a matching side door for your insulated sectional doors?

With our insulated sectional side doors, you can be in and out in no time through a matching side door. There's no need to raise and lower the whole garage door just to get to your bike, tools, or lawnmower.

We have matching side doors for all sectional garage doors for when you need to nip in and out of your garage.

All side doors are built strong and durable and come fully insulated with a handle set and security lock as standard. Weatherseals help keep out the elements. iso 20 doors feature a door leaf frame and corner door frame made from steel. iso 45 doors feature a door leaf frame and block door frame made from aluminium. Robust hinges provide long-term, dimensionally accurate opening and closing. The hinges are also three-way adjustable, allowing for precise adjustments during assembly.

INSULATED SECTIONAL DOORS

Colours

Insulated doors can work with your lifestyle in so many different ways.

RAL colours available on request

Super-Color colours

Rustic Wood effects

Our insulated sectional garage doors are available with six different weather-resistant, top-coated film laminates in authentic, rustic wood effects with a smooth surface. In addition to the large rib pattern, you can now also order all the wood effects in the flush and some in the panel pattern (not Winchester, Black oak and Moor oak).

Benefit from our NEW Structural Surfaces

Our insulated sectional garage doors are now available in 6 more decorative, top-coated satin matt structural surfaces with reduced dirt retention and exceptional weather resistance.

Microline Pattern (Flush)

Exclusively for the flush pattern for iso 45 sectional garage doors, our popular industrial door profiled finish Microline (Flush) is available in Satin grey and Satin white. This is a modern, profiled wave structure with a striking and expressive light and shade effect.

INSULATED SECTIONAL DOORS

Glazing

All Novoferm glazing panels are manufactured out of weather-resistant acrylic glass or impact-resistant polycarbonate.

Glazing Options

Our attractive glazing options not only make a feature of your garage, but also let the light in, especially appealing if you use your garage as a storage room or workshop.

Novoferm glazing panels stand out due to their high transparency and have excellent heat insulating properties - just like our insulated sectional garage doors.

Sectional doors are bespoke and made to order

All colour samples depicted in this brochure are as close to the original manufacturer's colours as possible. Garage doors supplied may vary in colour from the brochure representation.

Novorol Roller Doors

SCAN TO SEE MORE DETAILS

The Novorol combines a space saving design with the convenience of an electrically operated automatic door.

The door lifts vertically and rolls into a box at the head of the garage door opening, providing more space in front of the garage. This allows you the option to park closer as the door does not swing out like a traditional garage door, which is ideal if you have a shorter driveway. This unique design also allows you more space inside the garage for storage etc.

The Novorol door is available in an array of colours and finishes, with vision laths available should you need to allow in more light.

Space-saving Novorol roller doors are safety certified to EN12453 and fitted with NovoShield and a safety edge as standard.

Novorol 77 doors require only 300mm x 300mm of head room space and open vertically. The Novoferm 55 requires only 205mm of headroom and is available up to 2.8 metres wide and 2.3metres high.

Novorol 77 door features:

- Standard White Polyester Painted 70mm Guides up To 3m Wide (Colours available)
- Standard White Polyester Painted 90mm Guides over 3m Wide (Colours available)
- Optional White 300mm NovoShield Full Box (Other Box Options Available)
- Novorol Hard Wired Control Safety System
- Two 2-Channel Hand Transmitters

Novorol 55 door features:

- Standard White 65mm Guides (Colours Available)
- White 205mm NovoShield Full Box (Colours Available)
- Novorol Hard Wired Control Safety System
- Two 2-Channel Hand Transmitters

Side Hinged Doors

Side hinged doors open as per a normal pedestrian door with two door leaves connected by hinges at the side to the main door frame. Customers can choose a 50/50 split with both doors of equal size, or an offset configuration, with one smaller personnel door.

Our side hinged doors are available in a range of patterns, surfaces, and colours, and customers can choose from an array of additional fittings.

All the door leaf frames are made from aluminium, guaranteeing maximum weather-resistance.

The robust hinges will provide long-term opening and closing that is dimensionally accurate. Choose whether to open both of the doors or just the active leaf and choose from a range of customisable fittings to personalise your doors.

Features and Benefits

- Centre overlap to help prevent forced entry and reduce draughts
- High Security Euro profile mortice lock
- Twin shoot bolts top and bottom for added security
- Stays to prevent the door opening further than 110 degrees
- All side hinged doors are supplied complete with 50mm frame
- Doors open outwards only, with the lock on the right when viewed from the outside
- Left hand opening option available
- Side hinged doors are available in 50/50 split or 2/3rd opening ratio with the exception of the Georgian design
- Side hinged doors are bespoke and made to order.

Smart Garage App

The new Novoferm Mobility App SmartGarage is available free of charge from the App Store or Google Play. With one "swipe" across the touch screen you can open and close the garage door; control the lighting, ventilation function and you can read out the operator parameters.

To use the mobility app, you need the mobility package, which contains the Novoferm Gateway and Novoferm WLAN module.

Novoferm garage door operators used with sectional doors can be controlled via the Novoferm Mobility APP "SmartGarage". You can download it free of charge from the App Store or Google Play.

All our garage door operators and additional hardware (e.g., light strips) are fitted with energy-saving LED lamps and many of our operators only consume 0.5 W in standby mode. All Novoferm operators are manufactured to the highest industry standards and come with a five-year guarantee.

Hand transmitters are protected by AES 128-bit encryption and multi-part rolling codes.

The approved 3-button technology helps with simple and fast adjustment of the operator functions. We also offer a variety of special attractive control pads which are constructed from UV-stable materials.

Advantages

- ✓ Intuitive Adjustment
- ✓ Smartphone-Enabled Door Control

When fitted to our retractable lifting up & over doors aids quick and easy installation and reduces noise reverberation.

Warranty and Maintenance

Up and Over Garage Door Finish

Our steel up and over doors are fully finished with a powder coat paint. Weathering and sun exposure can cause the finish to fade. We guarantee 5 years steel doors and 2 years timber doors finished fully and that any fading will be minimal and uniform, providing the door is maintained in accordance to the care and maintenance advice. Timber doors are supplied with a basecoat as standard or with an option for fully finished.

Side Hinged Garage Door Finish

Our sectional doors are fully finished with a sprayed colour finish or with a foil backed laminated finish. Weathering and sun exposure can cause the finish to fade. We guarantee the finish on doors for 5 years and that any fading will be minimal and uniform providing the door is maintained in accordance to the care and maintenance advice.

Roller Garage Door Lath Finish

Our Roller doors come in two finishes; a polyester powder coat and a woodgrain laminate. Weathering and sun exposure can cause the laths to fade. We guarantee the finish for 5 years and that any fading will be minimal and uniform, providing the door is maintained in accordance to the care and maintenance advice. Please note: due to the rolling action of the door, surface marking can be caused by security locks, dust and debris. This does not constitute as a product fault and performance is not affected in any way.

Sectional Garage Door Finish

Our sectional doors are fully finished with a sprayed colour finish or with a foil backed laminated finish. Weathering and sun exposure can cause the finish to fade. We guarantee the finish on doors for 5 years and that any fading will be minimal and uniform, providing the door is maintained in accordance to the care and maintenance advice.

Our promise

During the warranty period, we undertake to rectify any defects to the Novoferm product, which can be proven to be attributed to a material or manufacturing defect.

We promise, at our discretion, to either exchange the defective merchandise or repair.

Replacement parts remain our property.

Warranty Requirements

This warranty only covers damage to the purchased garage door, or garage door operator. You will be required to show a fully completed warranty service passport (service to be conducted by a qualified engineer annually), together with a receipt of purchase, which correspondingly substantiates your right to claim under warranty. In the event of a claim, please contact the company who supplied/installed the doors. They will raise the warranty on your behalf.

For Basecoat timber doors, these must be suitably finished immediately on installation for the guarantee to apply.

During the claims process, a site inspection may be required. For this we will send an independent assessor. Should this inspection indicate the fault was not caused by a manufacturing defect, you will be liable for the cost of a non-warranty call out. The cost of the call out will be advised prior to the arranged visit.

Novoferm will not accept consequential costs for installation or de-installation, inspection of parts, transport, and postage costs.

Up and Over, Side Hinged and Sectional Doors - What is covered?

Subject to the terms and conditions outlined in this document. Novoferm garage doors offer the warranty:

- 10 Years – Safe and reliable operation (for

use up to 5 open/close cycles per day)

- 10 years – Structural integrity of door panels
- 10 years – Panel corrosion
- 10 years – retractable, sectional and side hinged doors (2 years on canopy doors) on immovable frame parts
- 5 years – Steel Doors
- 5 years – Insulated sectional doors
- 2 years – movable and mechanical parts (including, but not limited to, springs, rollers, wheels, locking points, rods/cables, barrel and locking mechanisms)

Insulated Roller Door – What is covered?

Subject to Terms and conditions outlined in this document. Insulated roller doors offer the following warranty:

- 5 years – Motor
- 5 years – control unit
- 2 years – remote controls and accessories (excluding batteries, bulbs and fuses)
- 5 years – lath finish
- 2 years – movable and mechanical parts (including but not limited to locking straps and rings, safety brake.)

Care and maintenance

Your door should be kept clean, with any stains removed as soon as possible. You should also ensure the door does not come into contact with any caustic or acidic substance, which could damage the door surface or structure. Your door should be cleaned thoroughly approximately every 2-3 months (in coastal areas or areas close to large bodies of saltwater, this should be done weekly) using warm water and a soft cloth or sponge. Allow to dry naturally. Never use detergent, abrasive, caustic, or solvent-based cleaners. Lubricate all springs, latches, wheel spindles, and pivot points using a light lubricating oil (e.g., 3-in-1). Take care not to allow oil to drip onto the face of the door. Ensure track runners are clean and free from obstacles at all times. Check moving parts for signs of wear. If any wear is detected, arrange for these to be replaced as soon as possible (failure to replace these parts can invalidate your warranty). Do not paint springs or any moving parts. For automated doors (retractable), do not operate the door when not within visual range.

Corrosion

Doors situated in 'high corrosive' areas such as within 3 miles of the sea or a large body of saltwater are not covered for rust or corrosion of steel parts. Cleaning of the doors is especially important in these locations.

All Novoferm Garage Doors - What is not covered?

- Improper installation, negligent care and maintenance - doors which have not been maintained or had annual maintenance/servicing
- Improper initial and subsequent operation
- Negligent or wanton destruction
- External influences, such as: fire, water, salts, alkaline solutions, acids and any abnormal environmental influences, sunlight
- Mechanical damage, through improper transport and fitting, or through falling or hitting objects
- Repair by non-qualified persons
- Using non-Novoferm parts without the written approval of the manufacturer
- Removal of the product number, or making it unidentifiable
- Application of additional, non-approved weights or infills
- Failure to remove the protective film or packaging

provided with the product, where applicable

- Failures caused by extreme or abnormal weather conditions

Visual standards check

Visual standard checks must be carried out prior to a warranty submission. This check should be carried out in natural daylight, not direct sunlight, standing at a distance of 3m from the door to view the overall appearance. Doors are acceptable if the following are not readily visible on the face of the door:

- Marks or distortion associated with the manufacturing process
- Minor indentations, marks, or scuffs on the surface
- Paint or Stain Blemishes

Operators and Accessories Warranty

Our promise:

During the warranty period, we undertake to rectify any defects to the Novoferm product, which can be proven to be attributed to a material or manufacturing defect. We promise, at our discretion, to either exchange the defective merchandise or repair it. Replacement parts remain our property.

Warranty Requirements

This warranty only covers damage to the purchased garage door operator. You will be required to show a receipt of purchase; this substantiates your right to claim under warranty. In the event of a claim, please contact the company that supplied/installed the doors. They will raise the warranty on your behalf. During the claims process, a site inspection may be required. For this, we will send an independent assessor. Should this inspection indicate the fault was not caused by a manufacturing defect, you will be liable for the cost of a non-warranty call out. The cost of the call out will be advised prior to the arranged visit. Novoferm will not accept consequential costs for installation or de-installation, an inspection of parts, transport and postage costs.

What is covered?

Subject to the terms and conditions outlined in this document. Operators and accessories offer the following warranty:

- 5 years – Novomatic operator (823/563/423)
- 5 years – Novoport operator (sectional doors)
- 5 years – Novorol and Teleco control unit (roller doors)
- 2 years- all remote control parts and accessories (excluding batteries, bulbs and fuses)

What is not covered?

- Improper installation, negligent care and maintenance.
- Improper initial and subsequent operation
- Negligent or wanton destruction.
- External influences, such as: fire, water, salts, alkaline solutions, acids and any abnormal environmental influences.
- Mechanical damage, through improper transport and fitting, or through falling or hitting objects.
- Repair by non-qualified persons.
- Using non-Novoferm parts without the written approval of the manufacturer.
- Removal of the product number, or making it unidentifiable.
- Operators used upon a door which exceeds rated lifting capacities.
- Failure to remove the protective film or packaging provided with the product, where applicable.
- Failures caused by extreme or abnormal weather conditions.

Terms and Conditions

Warranty

In the unlikely event of a warranty claim becoming necessary please contact the dealer or distributor who supplied the door.

To enable your claim to be processed without delay you should provide the following information:

- Your name, address and contact telephone number
- The original invoice and date of purchase
- A description of the door, the door type and the product number
- A description of the reason for the claim

Your dealer will then supply details of your claim, together with a copy of the warranty card supplied with the door and proof of purchase, to the warranty department at Novoferm UK.

An assessment of the claim will be made. This may mean Novoferm will need to come and inspect your door at your premises.

In the event that there is no legitimate claim under the terms of the warranty you will be liable for the costs of this visit. It is essential that you take note of the care and maintenance instructions provided with your door and you follow these instructions throughout the lifetime of your door. It is essential that you take note of the care and maintenance instructions provided with your door and you follow these instructions throughout the lifetime of your door.

The warranty does not cover:

- Improper installation
- Normal wear and tear
- Priming and other surface protection treatments
- Negligent or wanton destruction
- Incorrect or too late applied surface protection treatments
- Repair by a non-qualified installer
- Use of non-Novoferm parts without the approval of Novoferm
- Damage or removal of the product number or making it unidentifiable
- Improper operation
- External influences, such as fire, salts, water, sun, alkaline solutions, abnormal environmental influences
- Mechanical damage caused by improper transport or installation

All dark colours which are exposed to direct sunlight should be avoided. Dark coloured doors may undergo expansion due to heat absorption. Such instances are not covered by the guarantee, however normal performance will revert when the door has cooled down if the heat absorption has affected the door's performance.

All colour samples depicted in this brochure are as close to the original manufacturer's colours as possible. Garage doors supplied may vary in colour from the brochure representation.

Prices

All orders are accepted on the understanding that the goods will be subject to the prices ruling at the time of delivery, unless other terms are specifically agreed. All prices are in £ sterling and exclude VAT.

A 25% handling charge applies to all unwanted items on standard stock items only. Items must be returned unopened and in an unused condition.

All returns are subject to acceptance by Novoferm UK Limited.

Specification

Due to the progressive outlook of the Novoferm Group we reserve the right to alter specifications to design and manufacture without notification. All specifications and details are correct at the time of publication, errors and omissions excepted.

All Doors

Colour match Pairs of doors should be ordered together to obtain the best colour match, bearing in mind the limitations of the materials used in the construction. Timber garage doors cannot be ordered as matching sets.

Size variations As the size of a door changes in height and/or width, the panel frequency and profile can change, therefore doors of the same style but of different sizes can be significantly different in appearance.

Clearances All doors require operating clearances, i.e. the gap between the door panel and frame opening, these are inbuilt during manufacture and should not be reduced by means of infills, or draught-proofing.

Deflection When in the open position, all doors will display a level of vertical deflection or 'sag' across the width of the panel. Individual manufacturers' specifications should be consulted for exact tolerances.

Right to Cancel

Any bespoke product which is made to measure/customised, is exempt of any cancellation rights.
